Abstract submission deadline: **December 21, 2018**

For more information and registration: <https://go.app.sckcen.be/euterp2019>

Theme

Previous EUTERP workshops have noted the importance of delivering effective radiation protection education and training to workers and other stakeholders. This EUTERP Workshop will consider how training can be optimized to make best use of resources to improve radiation protection in practice and promote a clear radiation safety culture. It will do so by discussing new developments and innovation in RP training, the value of needs analysis, design of training, evaluation of effectiveness and impact, standards and competencies for trainers, and outreach and networking activities.

Format

This Workshop will consist of presentations (oral and posters) intended to highlight the main issues, and a significant part of the programme will be devoted to discussions within working groups. Participants will be expected to produce recommendations on education and training issues, to be addressed to relevant local, national and international stakeholders.

Registration

Registration is open until March 22, 2019.

- Early bird registration: 350 EUR (incl VAT) until February 1, 2019
- Late registration: 450 EUR (incl VAT) from February 1 until March 22, 2019

One participant from each EUTERP Associate may apply for a reduction of 100 EUR, see EUTERP website for application procedure.

The registration fee includes:

- Participation in the full Workshop
- Coffee breaks and lunches
- Welcome cocktail Tuesday April 9
- Evening reception on Wednesday April 10
- 3 course gala dinner on Thursday April 11
