

ETRAP

International Conference on Education and Training in Radiation Protection

Invitation to become a SPONSOR of the ETRAP 2021 International Conference on Education and Training in Radiation Protection

Dear correspondent

The 7th ETRAP conference will take place from the 23rd to the 26th March 2021.

For many years the ETRAP conference has brought together training providers, academics, policy makers, radiation protection experts, regulators and end-users to present and discuss the latest developments in education and training in radiation protection.

This years' event is a special one: the first fully online ETRAP will provide a dynamic program specifically dealing with the challenges and opportunities of education and training in radiation protection in a virtual setting.

ETRAP 2021 is organized by the Belgian Nuclear Research Centre SCK CEN, in cooperation with the EUTERP Foundation, the International Radiation Protection Association (IRPA) and the International Atomic Energy Agency (IAEA). It is expected to attract about 150 participants from Europe and beyond.

The event will include live online presentations and discussions as well as demonstrations of virtual training and an online networking tool. The program is available at www.etrp.net and is attached as an annex to this letter.

As a sponsor you would have the opportunity to

- advertise your logo on the ETRAP website;
- advertise your logo during at least one break per day;
- present your company or institute during the online networking event;
- register one representative for free to this conference.

This package is offered for 700 euros. If you are interested in more customized sponsoring this is, of course, also possible.

If you would like to take up this offer, or would just like to discuss the matter in more detail, you can contact us using the details below.

We hope to see you at ETRAP 2021.

Sincerely

Michèle Coeck
Chair Scientific Programme Committee ETRAP 2021
